

Coverlight motorised blockout blinds

jimsblinds.com.au

Advanced light control

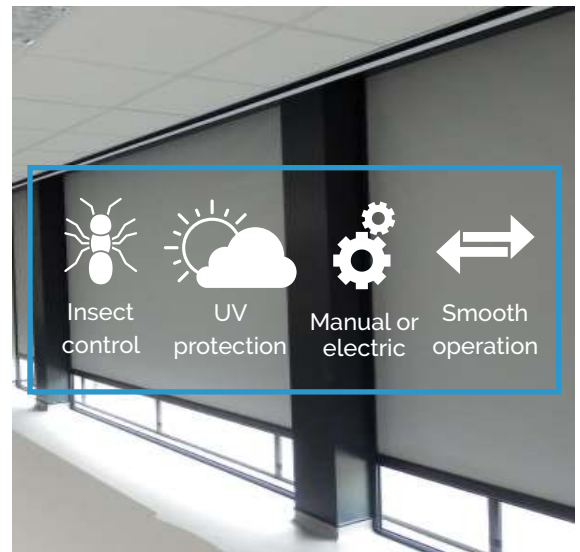

If you have a home cinema room, bedroom or conference facility and want a complete blackout blind, the Coverlight system is the perfect solution, especially if you work night shift. Unlike most blinds there are no gaps at the bottom or the sides of the blind. Choose from heavy light blocking or light and translucent, it's up to you.

- Track guided system
- Small discrete headbox
- Sealed all round
- Long life fabrics
- Motorised for convenience
- Can work with your WiFi hub
- Transform your room from bright to dark in seconds
- Excellent heat retention due to "double glazing effect"
- Discrete and non-intrusive frame and headbox.
- Colour matching using Dulux powder coat colours.

Coverlight benefits

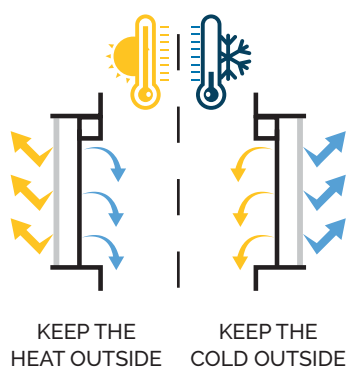

TRACK GUIDED

The fabric is locked into small side tracks to ensure there is no gap, so no wind, light or insects can enter the space. There is a sealed surface between the window and the blind ensuring the area will stay at your desired temperature.

- Adjust your blinds with one touch
- No more chains or cords to get tangled up
- Discreet and with superior insulation
- Safer for children and pets

Insulation Properties

In summer up to 87% of your rooms heat is gained through the windows. You can also lose up to 40% of your rooms heating energy through your windows in winter. To dramatically reduce these figures, our Eclipse track guided system is the perfect solution. Enjoy a more comfortable indoor space all year round and save money.

The best performing and most durable blackout fabric available.

Australia's premium blackout blind fabric

Backed by an industry leading 10 year warranty, Australians have chosen Dawn to help protect their home for over 25 years. Over 50 colours are available, choose the perfect colour for you.

QUALITY ASSURED

Unsurpassed 10 Year Fabric Warranty. The best performing and most durable blackout fabric available.

LARGEST COLOUR CHOICE

With the largest colour range in Australia, we have matched to the most popular paint colours.

THE ONLY SEMI-GLOSS BLOCKOUT FABRIC

It's semi-gloss finish, not only makes it easy to clean but adds to its durability.

EASY CLEANING

Uniguard® Fabric Protection system and semi-gloss finish makes cleaning easy and effective.

FULLY FADE RESISTANT

Guaranteed colours will not fade over the 10 year warranty period.

ENVIRONMENT & HOME FRIENDLY

Greenguard® certified to guarantee Air Purity. PVC and Lead Free.

DURABLE AND HARD WEARING

One of the heaviest & thickest fabrics available in the Australian market today.

ANTI-CRACKING AND ANTI-CRAZING FORMULATION

Our patented coating system provides a long lasting fabric that will withstand the harsh Australian sun, guaranteed not to crack craze or blister.

MOULD & MILDEW RESISTANT

Uniline's XLinked® formulation with our Uniguard® Fabric Protection system makes Dawn the most resilient fabric available today.
